CAREER OBJECTIVE

Motivated BCA student graduating in 2027 with a strong interest in Full Stack Web Development. Skilled in the MERN stack and passionate about building scalable, user-friendly web applications. Seeking an internship or entry-level Software Developer/MERN Stack Developer role where I can contribute to real-world projects while continuously improving my technical skills.

EDUCATION

Bachelor of Computer Applications (BCA)

Uttam Institute of Technology and Management

Expected Graduation: 2027 | CGPA: 7.8/10

TECHNICAL SKILLS

- 🔧 **Languages:** JavaScript (ES6+), HTML5, CSS3
- 🔧 **Frontend:** React.js, Redux Toolkit, React Router, Tailwind CSS, Bootstrap, Responsive Web Design
- 🔧 **Backend:** Node.js, Express.js, REST APIs, MVC Architecture
- 🔧 **Database:** MongoDB, Mongoose
- 🔧 **Tools & Technologies:** Git, GitHub, VS Code, npm, Cloudinary
- 🔧 **Core Concepts:** CRUD Operations, Authentication & Authorization, JWT, OTP Verification, RBAC, Rate Limiting, API Integration, State Management, Responsive UI Design

PROJECTS

Synergy+ Hospital 🏥 Doctor Appointment Management System

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, Google OAuth, Tailwind CSS, REST APIs

- 🔧 Developed a full-stack healthcare appointment portal using the MERN stack, structured with an MVC architecture (models, controllers, services, routes).
- 🔧 Implemented JWT authentication with Google OAuth login and a multi-channel OTP verification system (HTTP email API with automatic SMTP fallback).
- 🔧 Designed role-based access control separating the Patient Portal from an Administrator Command Center, with real-time appointment status tracking.
- 🔧 Engineered a custom sliding-window rate-limiting middleware to protect authentication and OTP routes from brute-force abuse.
- 🔧 Developed automated Mongoose seed routines to populate hospital departments, doctors, and admin credentials on first run.

NestMart 🛒 Full Stack MERN E-commerce Platform

Technologies: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, Cloudinary, REST APIs

- 🔧 Developed a full-stack e-commerce platform with a React/Redux Toolkit frontend, an Express/Node.js REST API, and MongoDB for persistent data storage.
- 🔧 Implemented secure JWT authentication with OTP email verification and role-based access control for User and Admin panels.
- 🔧 Built an Admin Dashboard with revenue analytics, order management, and product inventory (add, edit, delete, search).
- 🔧 Integrated Cloudinary for image uploads, and added a product review and rating system.
- 🔧 Built a responsive, mobile-first UI with a shopping cart, checkout workflow, and mobile bottom navigation.

CERTIFICATIONS

- 🎓 Apna College 🎓 Full Stack Web Development Certificate
